COOL WOODS

Cool Woods

2020
SHIRAZ

PALATE
A well-balanced, fruit-driven style of wine.

VINIFICATION
Cool Woods Shiraz combines fruit from several regions around South Australia and uses subtle oak maturation.

VINTAGE
Much like the previous vintage, the 2020 harvest has produced wines of immense quality but with very low quantities. Another dry winter and mild weather during the ripening period led to exquisite whites coming from our Mt Crawford vineyard. The varieties maintained their natural acid as they ripened and showed hallmark varietal characters. Upon harvest the bunches were few and far between and the berries themselves small. This led to fruit with great perfume and intense flavour along with elegance and balance.

REGION
Cool Woods wines are made to be enjoyed with friends and family – the wines are sourced from our own cool climate vineyards, and supplemented with fruit from neighbouring cool climate regions.

The Cool Woods label is a representation of the view from our cellar door on a typically crisp and foggy Winter morning. The old gums are the first thing that can be seen as the thick fog clears. Standing alongside our vineyard, these old trees would have seen some changes over the years – from early settlers arriving, to a working dairy and now a premium cool climate winery.
