CULLEN WINES
WILYABRUP ✻ MARGARET RIVER

2012 Cullen Vineyard Sauvignon Blanc Semillon

As usual, this blend contains a greater volume of Sauvignon Blanc than Semillon, which reflects the outstanding qualities of the fruit produced by the former variety on the Cullen Vineyard, while recognising that it can still be enhanced by the complimentary characteristics of the latter variety. The fruit was picked at optimal ripeness, which was represented by Baume's of only 9.6° – 11.9°, resulting in the highly desirable production of an alcohol concentration of only 10.9%. Complexity and completeness have been enhanced through maturing a substantial component of the wine in new oak.

BOUQUET
Delightful combination of fresh cut grass, water cress, savoury and vanillin oak aromas.

PALATE
Deep, rich and vibrant fruit and mineral flavours. Very complex, integrated and long and supplied with a great acid drive. A great example of this wine style.

CELLAR
Enjoy now or for up to 15 years

FOOD
All mild seafood and Asian dishes
