COOL WOODS

Cool Woods

2021
PINOT GRIS

PALATE
Our wine is produced from an established vineyard producing excellent fruit showing all the pear and spice characters that Pinot Gris is known for.

VINIFICATION
In the winery, some time on yeast lees adds a little 'body' and character to this wine.

REGION
Cool Woods wines are made to be enjoyed with friends and family – the wines are sourced from our own cool climate vineyards, and supplemented with fruit from neighbouring cool climate regions.

The Cool Woods label is a representation of the view from our cellar door on a typically crisp and foggy Winter morning. The old gums are the first thing that can be seen as the thick fog clears. Standing alongside our vineyard, these old trees would have seen some changes over the years – from early settlers arriving, to a working dairy and now a premium cool climate winery.
