Snake + Herring

Snake + Herring

2020
Tainted Love Syrah Rosé

VARIETAL

100% Syrah.

APPEARANCE

Pale pink colour.

PALATE

A creamy palate with raspberry, floral and spice notes. Richly textured, the red fruit characters are complemented by voluptuous creamy barrel fermentation texture and balanced by fine, lingering tannin.

VINIFICATION

The fruit was harvested and quickly destemmed to the press, with 60 minutes on skins to develop a blush of colour and a light tannin structure. We pressed to tank then ran the whole juice to old puncheons for a wild ferment, where it spent 4 months on lees before bottling.

REGION

In 2020 we sourced a cracking parcel of Syrah from a cool site in Wallcliffe, south of Margaret River township, and grown on gravel soil with a northern aspect by 25yo Syrah vines.

WINEMAKER'S COMMENT

We wanted to make European Rosé: dry, savoury textured, refreshing and great with food.
