YANGARRA
ESTATE VINEYARD

PF GRENACHE

Yangarra is a single-vineyard estate situated in the north-east of the McLaren Vale region, South Australia. Yangarra's combination of ancient geology, high altitude and Mediterranean climate provide the ideal growing conditions for the best grape varieties of the southern Rhône.

2021 PF GRENACHE

The PF is a fruit driven, medium bodied Grenache that is intentionally produced to be enjoyed in its youth. The grapes are sustainably grown in Blewitt Springs without herbicides, fungicides or synthetic chemicals and no additions of any kind are used in the winemaking process, such as sulphur, acid, tannin or finings. We are proud to produce Preservative free wines that are clean, fruit driven styles, free from common faults in minimal intervention winemaking.

VINTAGE SUMMARY

2021 was a favourable growing season with good winter rains and a mild flowering and fruit set period during spring. This resulted in balanced yields. In December we work on our canopy management to give good exposure to the developing grapes, enabling even ripening. The ripening period that began late January was very moderate resulting in slow sugar accumulation, allowing for balanced flavour and tannin development. The richness and intensity of fruit is a real feature of the 2021 vintage.

WINEMAKING

De-stemmed and mechanically sorted with a large percentage of whole berries retained and tipped into open-top fermenters. After a few days of gentle coldsoaking, we allowed the must to warm, and wild fermentation to occur. The wine was carefully basket pressed after a long gentle maceration. No additives were used throughout entire production. Bottled in October 2021.
